Thanks for filling out this form: CSCI 4050U Project Signup - 2025

Here's what was received.

CSCI 4050U Project Signup - 2025

Complete the form to sign up for the final project

Your email (**alessandro.alberico@ontariotechu.net**) was recorded when you submitted this form.

Project Title

Visisign

Project Description

This project involves the development of a machine learning model capable of recognizing hand gestures connected to American Sign Language (ASL).
The scope is to recognize letters and/or digits from images and possibly expand to simple phrases like "Hello" or "Goodbye".
The system will take an image of a hand performing a sign as input and output the corresponding alphabet, number or simple word.
The idea is to use static images at first and try to expand into live translation.
